AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application. Please add new claim 121 and amend claims 98 and 115:

Claims 1-97 (canceled).

Claim 98 (currently amended): A cosmetic process for making up ernentherapeutically treating the nails of human beings, comprising:

applying to the nails of human beings an effective amount of a composition comprising:

a liquid organic phase comprising at least one volatile organic solvent and at least one first polymer with a weight-average molecular weight of less than or equal to 100,000 comprising:

a) a polymer backbone comprising hydrocarbon-based repeating units, said units comprising at least one hetero atom in said backbone, and

b) at least one fatty chain containing from 6 to 120 carbon atoms and chosen from at least one pendent fatty chain and at least one terminal fatty chain, wherein the at least one fatty chain is linked to the hydrocarbon-based units and is optionally functionalized,

wherein said at least one volatile organic solvent and said at least one first polymer are present in the composition in a combined amount effective to give a structured composition.

Claims 99-105 (canceled).

Claim 106 (previously presented): The cosmetic process according to claim 98, wherein the at least one first polymer is chosen from a polymer of formula (I) and mixtures thereof:

$$R^{1} \longrightarrow O = \left\{ \begin{array}{cccc} & R^{4} & R^{4} \\ C \longrightarrow R^{2} - C \longrightarrow N \longrightarrow R^{3} \longrightarrow N \end{array} \right\} \begin{array}{cccc} & C \longrightarrow R^{2} \longrightarrow C \longrightarrow C \longrightarrow R^{1} \\ O & O & O & O \end{array}$$

in which:

- n is an integer which represents the number of amide units such that the number of ester groups present in said at least one structuring polymer ranges from 10% to 50% of the total number of all said ester groups and all said amide groups comprised in said at least one structuring polymer;
- R¹, which are identical or different, are each chosen from alkyl groups comprising at least 4 carbon atoms and alkenyl groups comprising at least 4 carbon atoms;
- R^2 , which are identical or different, are each chosen from C_4 to C_{42} hydrocarbon-based groups with the proviso that at least 50% of R^2 are chosen from C_{30} to C_{42} hydrocarbon-based groups;

REPLY TO FINAL OFFICE ACTION Application Serial No. 10/046,568 Attorney Docket No. 05725.1018-00000

- R³, which are identical or different, are each chosen from organic groups comprising atoms chosen from carbon atoms, hydrogen atoms, oxygen atoms and nitrogen atoms with the proviso that R³ comprises at least 2 carbon atoms; and

- R⁴, which are identical or different, are each chosen from hydrogen atoms, C₁ to C₁₀ alkyl groups and a direct bond to group chosen from R³ and another R⁴ such that when said at least one group is chosen from another R⁴, the nitrogen atom to which both R³ and R⁴ are bonded forms part of a heterocyclic structure defined in part by R⁴-N-R³, with the proviso that at least 50% of all R⁴ are chosen from hydrogen atoms.

Claim 107 (previously presented): The cosmetic process according to claim 106, wherein the at least one first polymer is chosen from ethylenediamine/stearyl dimer tallate copolymer.

Claim 108 (previously presented): The cosmetic process according to claim 98, wherein said organic phase comprises at least one volatile organic solvent exhibiting mean Hansen solubility parameters dD, dP and dH at 25°C, wherein dD, dP and dH satisfy the following conditions:

15
$$(J/cm^3)^{1/2} \le dD \le 19 (J/cm^3)^{1/2}$$

 $dP \le 10 (J/cm^3)^{1/2}$; and
 $dH \le 10 (J/cm^3)^{1/2}$.

Claim 109 (previously presented): The cosmetic process according to claim 108, wherein $dP \le 5$ (J/cm³)^{1/2}.

Claim 110 (previously presented): The cosmetic process according to claim 108, wherein $dH \le 9 \ (J/cm^3)^{1/2}$.

Claim 111 (previously presented): The cosmetic process according to claim 108, wherein dD, dP and dH obey the relationship

$$\sqrt{4(17-dD)^2+dP^2+dH^2} < L$$

wherein L is equal to 10 (J/cm³)^{1/2}.

Claim 112 (previously presented): The cosmetic process according to claim 111, wherein L is equal to 9 (J/cm³)^{1/2}.

Claim 113 (previously presented): The cosmetic process according to claim 98, wherein the composition further comprises at least one second film-forming polymer.

Claim 114 (previously presented): The cosmetic process according to claim 113, wherein the at least one second film-forming polymer is chosen from cellulose polymers, polyurethanes, acrylic polymers, vinyl polymers, polyvinylbutyrals, alkyd resins, resins resulting from aldehyde condensation products, and arylsulfonamideepoxy resins.

Claim 115 (currently amended): The cosmetic process according to claim 98, wherein the at least one volatile organic solvent is chosen from esters having from 4 to 8 carbon atoms and <u>linear</u> alkanes having from 6 to 10 carbon atoms.

Claim 116 (previously presented): The cosmetic process according to claim 98, wherein the at least one volatile organic solvent is chosen from ethyl acetate, n-propyl acetate, isobutyl acetate, n-butyl acetate, and heptane.

Claim 117 (previously presented): The cosmetic process according to claim 98, wherein the at least one volatile organic solvent is chosen from branched C_8 - C_{16} alkanes, and branched C_8 - C_{16} esters.

Claim 118 (previously presented): The cosmetic process according to claim 98, wherein the volatile organic solvent is chosen from C_8 - C_{16} isoparaffins, and isododecane.

Claim 119 (previously presented): The cosmetic process according to claim 98, wherein the liquid organic phase additionally comprises at least one nonvolatile oil.

Claim 120 (previously presented): The composition according to claim 98, wherein the composition further comprises at least one additive chosen from coloring materials, antioxidants, preservatives, fragrances, fillers, waxes, neutralizing agents,

REPLY TO FINAL OFFICE ACTION Application Serial No. 10/046,568 Attorney Docket No. 05725.1018-00000

cosmetic or dermatological active principles, dispersing agents, spreading agents, and sunscreens.

Claim 121 (new): The cosmetic process according to claim 106, wherein the at least one first polymer is chosen from ethylenediamine/stearyl dimer dilinoleate copolymer.
